

# Gas Fireplaces

2017 Collection

**Rinnai**

*Relax with Rinnai.*

# Driven to create comfort.

**We are motivated to engineer relaxation and well-being in your home and life. Our full range of gas fireplace products illustrate this determination; we are passionate about creating beautifully designed products that truly capture the essence of luxury comfort in the home.**

**With commitment to ongoing innovation, we endeavour to offer heating products that feature safety, control, convenience and versatility to ultimately deliver reliability. Relax, it's a Rinnai.**

## Our Focus

### Design

A Rinnai gas fireplace provides more than just heat. As a centre piece to your home, a truly warm focal point, we understand the importance of design – and it's at the heart of what we do. Our approach to design and function ensures we deliver forward thinking, innovative products that you're proud to have in your home.

### Energy efficiency

Constantly front of mind at Rinnai, we strive to ensure our products are friendly to the environment and your hip-pocket. With energy star efficiency ratings as high as 5.5 stars\*, we are pushing new boundaries of energy efficiency.

### Quality

Meticulous engineering, precision manufacturing and strict quality assurance procedures are the hallmarks of our ongoing focus on quality products. Our obsession with excellence means you can relax knowing you've made the right choice.

### Warranty

We're confident in the quality of our products, so much so that we offer 10 years domestic warranty on the heat exchanger, 2 years on the fan and 1 year for all other parts/labour for all Rinnai gas fireplace appliances.

### Safety

All Rinnai gas fireplace appliances are equipped with a range of safety features, giving you peace of mind.

### Simple installation

The Rinnai range of gas fireplaces are engineered with ease of installation in mind. We strive to ensure that all components of our fires are designed for simplicity and easy access, allowing a quick and hassle-free installation.

### Support

We operate a Melbourne based national customer administration centre, offering advice and information on all our products to homeowners, retailers, plumbers, builders, architects and the like. Contact us on Monday to Friday, 8:00am to 5:30pm on 1300 555 545.

\*Star rating depends on installation and flueing configuration

750 | Gas Fireplace

# Experience real radiance with the Rinnai 750.

There's no better way to escape the winter chill than curling up in front of a flickering fireplace. The Rinnai 750 combines cutting-edge technology and luxury design features to deliver an authentic ambience.

Rinnai's innovative ember bed technology recreates the warm, radiant glow of a natural wood burning fire, delivering the romance of fire at the touch of a button - without any fuss.

- > Unique new ember bed technology
- > Simple, slimline remote control with every unit
- > Wide viewing window with minimal frames
- > Double glazed front - no need for a mesh guard
- > High heat output up to 6kW of warmth
- > Designed for replacement, renovations or new homes
- > Available with either natural wood or glowing stones

650 | Gas Fireplace

A touch of  
luxury and design  
this winter.

The Rinnai 650 gas fireplace is the perfect solution to creating an ambient atmosphere. Experience the latest in design innovation, featuring Rinnai's new ember bed technology. We've recreated the romance of a roaring fire without any of the hassle that goes with it.

With a flush, thin frame and wide viewing glass, the Rinnai 650 creates a beautiful look that will catch the eye of any design conscious individual.

Designed specifically to suit existing fireplaces with narrow dimensions, the 650 is ideal for smaller spaces.

All Rinnai 650 gas fireplaces come with a simple, easy to use remote control, for fire at the flick of a button.

**950X** | Gas Fireplace

# Spread the warmth and comfort.

The 950X represents a new generation of gas fires for Rinnai. Designed to meet the highest expectations in terms of simple installation, powerful heat output, energy efficiency and flueing flexibility, the 950X is the future of fire.

This gas log fire offers a mix of modern frames and burn media options, giving you the ultimate flexibility to create a space that is your own. The classic 'cut wood' look of the Australian Eucalyptus Log Set provides a beautiful dancing flame, whilst the glowing Pebbles radiate warmth with a modern twist.

- > Incredibly energy efficient with a top-of-the-range 5 star rating.
- > Powerful heating performance over 8kW, perfect for open plan living and large areas.
- > Modern or classic? Select either pebbles or logs to suit your style.
- > Stainless steel or black? Select a fascia option to match your tastes.
- > Safety mesh guard to give peace of mind and eliminate reflections.
- > Thermostatic control - set the temperature and relax.
- > Flexible flueing options.

Sapphire | Gas Fireplace

Relax in **warmth**  
and **comfort**  
with this gem.

**The Sapphire** gas log flame fire gives you all the appeal of an open wood fire, without any of the bother that goes with it.

Perfect for the replacement of an old, inefficient wood or space heater, the Sapphire is specifically designed to fit into an existing fireplace without any additional flueing required. This gas fire is also available in a variety of freestanding options, or may also be installed in a mock fireplace.

- > 4.1 Star energy efficiency rating
- > Powerful 6.97kW output - suitable for heating large open areas
- > Programmable 4 period timer
- > Stylish glass dress guard for protection
- > Optional remote control available

# Expert advice and quality service.

**Keep an eye out for this logo and make sure you visit a Rinnai Trusted Gas Fire Specialist.**

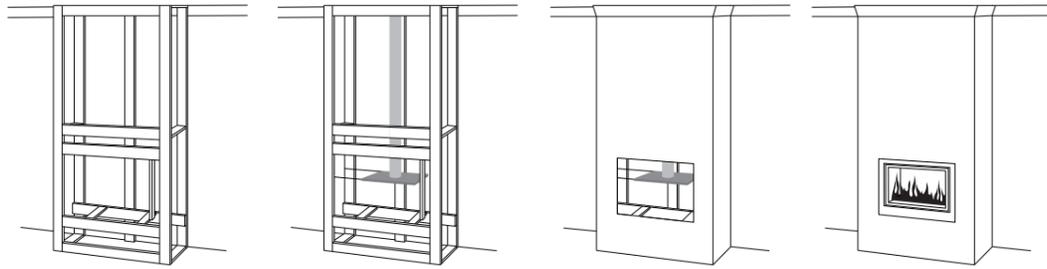

Selecting the right gas fireplace for your home can be a difficult task. With a huge range of different design options, making the right choice that suits your living space can be a daunting decision. There's also a range of complexities around installation and service that may impact your decision.

That's why Rinnai recommends visiting a Rinnai Trusted Gas Fire Specialist dealer. Rinnai supports a national network of dealers that offer the full end-to-end service when it comes to gas fireplaces. A Rinnai Trusted Gas Fire Specialist can specify, install and service your Rinnai gas fireplace.

# Installation Options

## Creating a False Fireplace

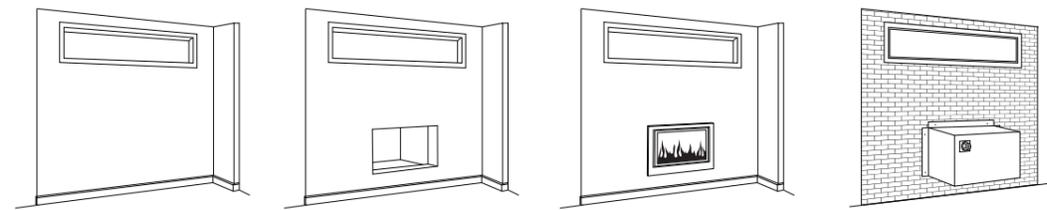

Whether you are building a new home, working through a major renovation or just want to revamp your living room, the Rinnai zero clearance option is the perfect solution to creating a new space.

If your home doesn't have an existing fireplace, creating a false fireplace is the next best thing. To ensure an easy installation into a timber frame or other combustible materials, the Rinnai 1250 and 950X are designed with an integrated zero clearance box.

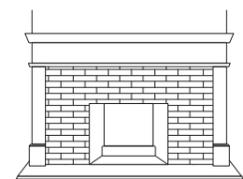

The Sapphire and Slimfire can be installed with the purchase of an additional zero clearance box and the 650 and 750 require an additional zero clearance frame.

## Weatherproof Box

For an alternative installation to a false fireplace, the Rinnai 1250, 950X, 750 & 650 can be installed into a weatherproof box. A cavity is cut into the existing blank wall and the fireplace is installed onto a bracket that allows the back of the fire to sit outside housed in a tightly sealed box. This option allows the fire to be built into an existing wall without taking up any extra space in the room. The weatherproof box is sold separately.

## Existing Masonry Fireplace

Another great option for many homes is installing a gas fireplace into an existing brick chimney. Turn an unused fireplace into a stunning feature or replace an existing gas heater with a Rinnai gas fireplace to create the ultimate solution for comfortable living. The Rinnai Sapphire, Slimfire, 650 & 750 are designed to suit existing masonry fireplaces.
